Services

Hospice focuses on comfort rather than cure as a patient faces terminal illness. Patients can participate in choosing the type of care that will help them live as fully as possible, for all the time that remains. Care is compassionately provided by our medical team, wherever the patient calls home.

Services may include:

- **Skilled Nursing**
- **Physician Visits**
- **Medical Social Work**
- **Spiritual Care**
- **Volunteers**
- **Pet Peace of Mind Services**
- **Bereavement Support**

A patient, family member or health care provider may request a referral. In collaboration with the physician eligibility can be established. A physician's order is necessary for admission.
